

WATTLES PARK FAMILY PRACTICE NEWSLETTER

Are you aware we have a patient portal? It is a way for you to access your chart and review your labs and visits you had at the office. YOU can talk with the doctor through the portal. Go to our website www.wattlespark.com click the link to access the portal.

Yes, we have a website and a Facebook page. We offer information about the office on our website and Facebook page.

“We focus on your family”

When you come in for your appointment it is important to bring your medication or a current medication list with you. Also, write down your concerns so the provider can address them during your visit time, making your visit very valuable for you and the provider.

As a family practice, we are here to offer services to take care of newborns to seniors and every age in between.

What is new?

We have a new provider joining us! We would like to welcome Jen Schaefer PA-C to our practice. She comes to us with a wealth of knowledge. She has been practicing in family medicine for over 5 years with a focus in women's health. She has a strong commitment to providing the best care to the patients we serve.

We have 2 Care Managers who have joined us recently. Robert Konkright LPN, and Angela Stone RN, both are licensed nurses who can assist you with understanding your medical conditions. They can assist with other issues as well. If you have trouble with affording medication or other financial needs they can help find the resources to get you the services you need. Transportation needs, home care, anything that will assist you in taking care of your health better give the office a call to speak with one of them.

What services do we provide?

We have **same day** appointments. That means that as a Patient Centered Medical Home we are here to meet your needs. If you are sick and need to be seen, call the office and we will get you in. You do not need to go to the Emergency Department for the non-life-threatening emergencies. Come to your doctor's office we know you best.

Did you now we have evening hours and a doctor on call after hours and weekends? If you or your family member who is a patient at our office is experiencing difficulties call the office and be transferred to the doctor's phone. He is available to talk with you.

We will be having the flu vaccine available. Call the office and schedule your appointment for the flu shot. Let us help you stay healthy.

Back to school time! We provide sports physicals. Get your child's immunizations and well child visit at the same time. No sports physical needed? No problem. Bring them in for their well child visit and immunizations before school starts. It is important to have your child seen by the provider for the well child visits.

We have a diabetic educator that comes to the office to provide free education to our patients. They want to give you the education needed to manage your diabetes. Call the office to see when the next class is available.

WE WANT TO THANK YOU FOR ALLOWING US TO PROVIDE YOU AND YOUR FAMILY WITH THE CARE YOU DESERVE.

WATTLES PARK FAMILY PRACTICE IS A PATIENT CENTERED MEDICAL HOME

OUR MISSION STATEMENT: WE FOCUS ON YOUR FAMILY TO PROVIDE YOU WITH THE HEALTHCARE YOU DESERVE.
